INGENIUX USER CONFERENCE 2019

📅 July 24 - 26, 2019   📍 Seattle, Washington

Increase product knowledge, build industry awareness, and exchange ideas at the Ingeniux User Conference, an annual gathering of Ingeniux customers, strategic partners, and industry experts.

INGENIUX

What to Expect

Get Inspired, Get to Work

Industry-leading keynotes, enlightening breakout sessions, and hands-on workshops make our conference a uniquely inspiring event. We provide sessions for everyone, regardless of background or job title. Attend breakout sessions in the Strategy, Development, or Solutions Track. Hear from guest experts on topics like content marketing, web development, and user experience. You'll leave this event well-armed with the knowledge you need to improve your web experience.

Maximize Your Technology Investment

There's always more to learn. Attending the conference is the best way to sharpen your Ingeniux tool-set. Sessions led by Ingeniux experts are designed to give you the most up-to-date product information, as well as sneak peeks into the future of Ingeniux products. Discover how you can improve current implementations and get a look at the roadmap for future releases.

Build a Network of Support

Engaging sessions and exercises allow you to talk about your projects with fellow Ingeniux users and hear what worked well for similar organizations. Fun networking events give you the opportunity to connect with others in the community and form a network of support that you can draw from in the coming year.
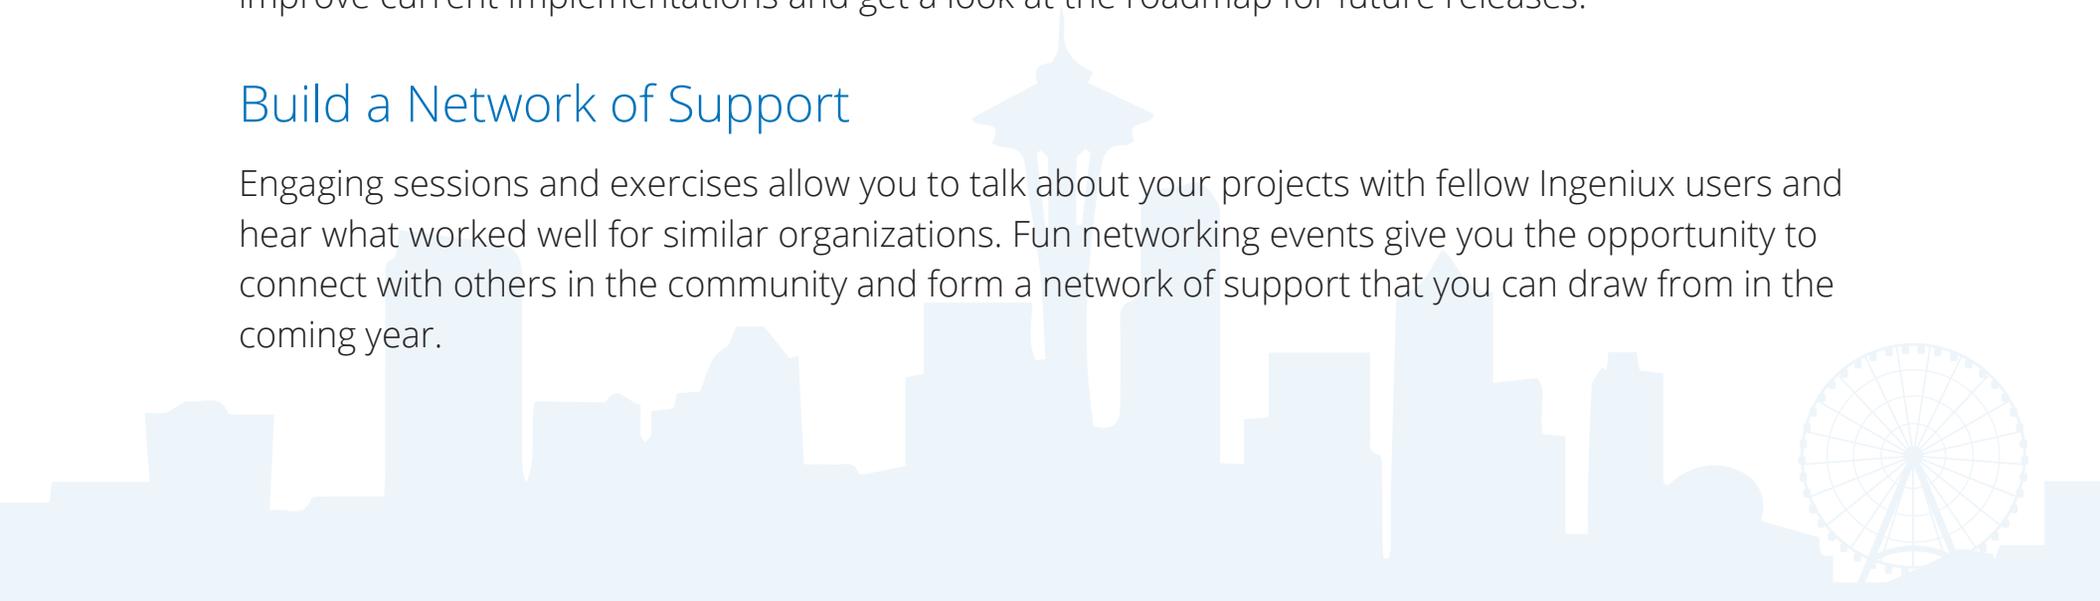

Our Community

Who will you meet? Each year we see CEOs, team leads, project managers, web managers, developers, designers, and web marketers in a number of industries, including:

Testimonials

The annual Ingeniux User Conference is an event I look forward to attending every year. Jim's keynote speech is always on the mark; sharing his vision and Ingeniux's forward-thinking approach to web content management. The multi-track approach (development and marketing) allows me to attend breakout sessions that are tailored and relevant to my needs. One of the more interactive portions the past two years has been the table brainstorming session about current and future functionality challenges and feature requests. This forum really allows for meaningful interaction between all clients and Ingeniux staff. I'd recommend any Ingeniux client attend this event if possible.

Carlos Felan, WSECU

The Ingeniux User Conference has been very rewarding for me professionally. I really enjoy networking with fellow Ingeniux users and Ingeniux staff while attending practical sessions focused on best practices. I also appreciate the featured keynote presentations discussing industry information and how these trends are being integrated as new system features. Every year I am able to bring back unique ideas for marketing and site development in order to improve our web strategies.

Nick Taylor, Allegany College

Invest in the Future of Your Web Experience

At Ingeniux, we're constantly inspired by how the web is changing, and how we can respond to - and effect - that change. As we chart the course of digital content management, we never forget that there's always more to learn.

That's why we bring in the best keynote and guest speakers, and put together a program full of valuable insights on:

- User Experience
- Web Design
- Content Marketing
- SEO
- .NET Development
- And More!

Join us at this year's conference to build your industry awareness and grow your Ingeniux knowledge. In attending our conference, you're investing in yourself and the future of your organization's web experience.

We hope you'll join us at this year's event!
